

AMENDMENTS TO THE CLAIMS

Please amend the claims as follows.

1. (Cancelled)
2. (Currently Amended) [[A]] The card like object according to of claim [[1]] 8, wherein the connecting means is antenna is connected to the contactless chip with a conductive track.
3. (Currently Amended) [[A]] The card like object according to of claim [[1]] 8, wherein the connecting means is antenna is connected to the contactless chip with a conductive adhesive.
4. (Currently Amended) [[A]] The card like object according to of claim [[1]] 8, wherein the connecting means is antenna is connected to the contactless chip with a metallic wire.
5. (Currently Amended) [[A]] The card like object according to of claim [[1]] 8, wherein the connecting means is antenna is connected to the contactless chip with a liquid.
6. (Currently Amended) [[A]] The card like object according to of claim [[1]] 8, wherein the contact chip and the contactless chip are in a stacked configuration.
7. (Currently Amended) [[A]] The card like object according to of claim [[1]] 8, wherein the contact chip and the contactless chip are in a side-by-side configuration.
8. (New) A card like object, comprising:
 - a top face and a bottom face;
 - a contactless chip;
 - a contact chip; and
 - an antenna electrically connected to the contactless chip,
 - wherein a cavity is formed on the top face; and
 - wherein the contactless chip and the contact chip are located in the cavity.

9. (New) The card like object of claim 8, wherein the top face is at least partially graphically personalized.
10. (New) The card like object of claim 8, wherein the antenna is embedded within the card like object.
